

OVO M+ | freestanding bath, 160 x 75 cm

Finish: olive

The expressive silhouette of the OMNIREs OVO freestanding bath features impeccable proportions. Toying with geometrical shapes gave rise to a design based on two semicircles. The almost vertical outer walls end in a flat edge highlighting the bath's bold design. The inner profile of the bath comfortably supports the back, while the wide bottom offers ample space. The bath's recessed setting is ideal for bathing children and makes getting in and out of the bath much easier. It features functional solutions such as a perfectly matching click-clack waste bath trap and a centrally located waste, which makes the bath ideal for shared moments of relaxation. Design: Paulina Shacalis, OMNIREs Studio.

The bath is made of an innovative composite material whose main component is dolomite rock. The technology used guarantees impeccable execution of every detail while ensuring remarkable durability and resistance. OVO bath in Olive (RAL6003) has a velvety matt surface in an expressive dark green hue.

Technologies

The product is made of an innovative composite material, M+, which is exceptionally durable, as well as resistant to mechanical damage, pressure and extreme temperatures.

The material provides highly desirable, precise finishing. Product surface is perfectly smooth and even, and dimensions precisely match the technical drawing (tolerance 0-3 mm).

Perfectly smooth product surface is free from any ruptures of micro openings, where bacteria and germs could grow. It is also easy to clean and maintain.

The product is very pleasant to the touch. The satin finish resembles a smooth stone that has been polished by water.

Product surface is warm to the touch. Water maintains its temperature for longer, both maximising the user experience and saving energy.

Thanks to its high density, M+ composite provides exceptional acoustic absorption. Sound of the falling water is minimised.

Technical specification

- length: 160 cm
- width: 75 cm
- height: 50 cm
- no overflow
- drain cover included
- to be used with basin mixers for concealed installation
- capacity: 355 l
- net weight: 85 kg
- gross weight: 105 kg
